

AI  
selecting a speed corresponding to a desired distance between locations for pH  
measurements;  
moving the chassis through the field at the selected speed to collect pH data at a  
number of places throughout the field; and  
causing the computer to associate the pH data with the respective place from  
which the soil samples were collected, thereby creating data points in the  
pH map.

REMARKS

Applicants submit that the present application is in condition for allowance and respectfully request action. A check in the amount of \$39.00 is enclosed for the extra independent claim added herein.
